

Thank You

Now that you have purchased the AirU station, here is some information to get you started.

This kit contains an AirU station, housing, and reference documentation.

To get started, and for questions please visit:

Wiki: www.github.com/ktingey/AirU/wiki

For detailed instructions on getting started, an installation guide, as well as hardware and software details.

Slack: Join *airu-dev* slack team for technical support, suggestions, and a virtual high five.

Issue Tracker:

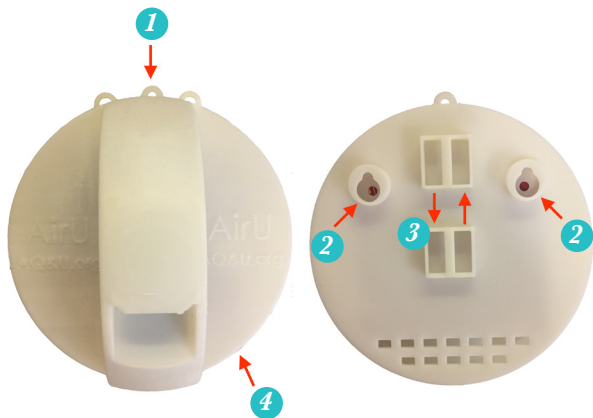

www.github.com/ktingey/AirU/issues

Issues are used to track todos, bugs, feature requests, and more.

Step 1

Install

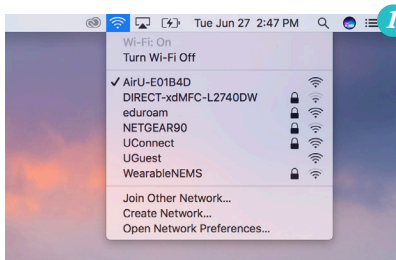

Mount AirU & apply power

Mount with string (1), screws or nails (2), or zip-ties (3). Plug in power adapter (4).

Step 2

Connect

1. Connect to AirU
2. Visit www.myairu.local and enter WiFi connectivity settings
3. Wait 3 seconds and unplug and replug to commit changes

Current Status: Offline

Setup Advanced

To register the sensor please click button!
